# INTRODUCTION

The D-REC Initiative was launched in 2020 by a coalition of NGOs, private sector participants, and government entities, with a noble mission to accelerate the energy transition in the global south by mobilizing climate finance. In 2023, this industry-led Initiative was successfully wrapped to give way to a stand-alone non-profit entity, the D-REC Foundation.

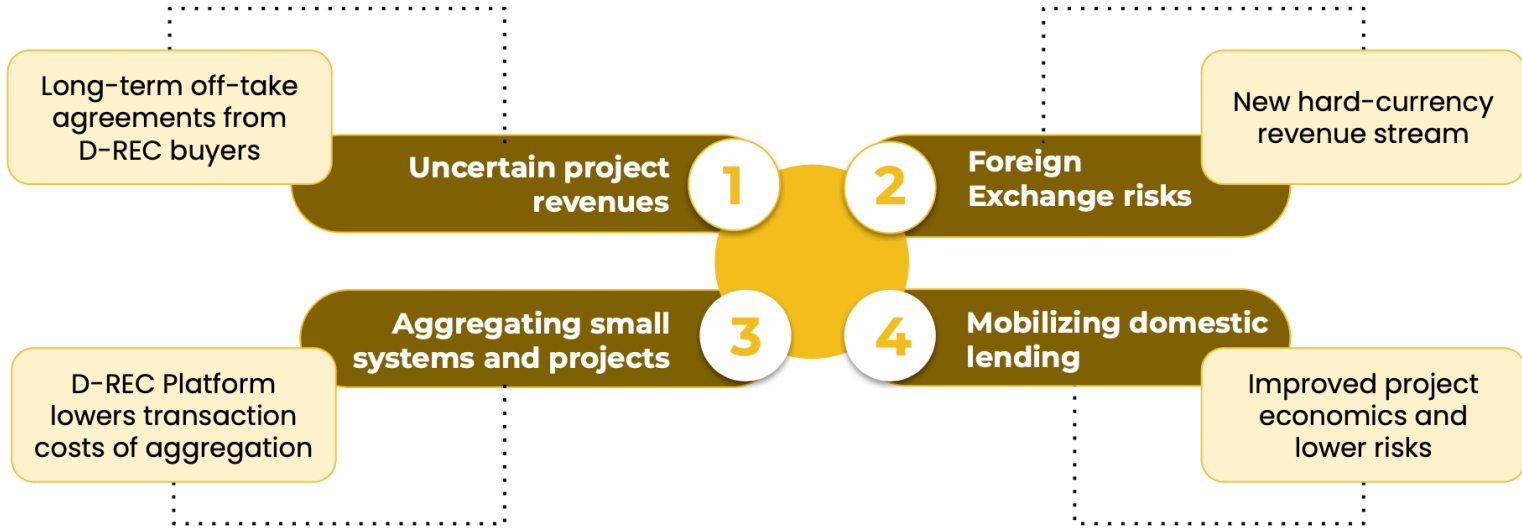

# D-RECs

**Distributed Renewable Energy Certificates (D-RECs) are a high-impact verification label for Energy Attribute Certificates (EACs) issued as I-RECs, for electricity generated from Distributed Renewable Energy (DRE) projects in the Global South.**

## High-Impact

- environmental benefits
- socio-economic factors improved

# For DRE Project Developers

# Our Impact

## For Corporations

- Grassroot-Level Sustainability Action

## For IGOs, IOs and NGOs

- Empowered Partnerships & Data Insights

## For Market Intermediaries

- Streamlined Transactions & Value Enhancement

## For Financial Institutions - (Project Funding)

- De-risking via D-RECs

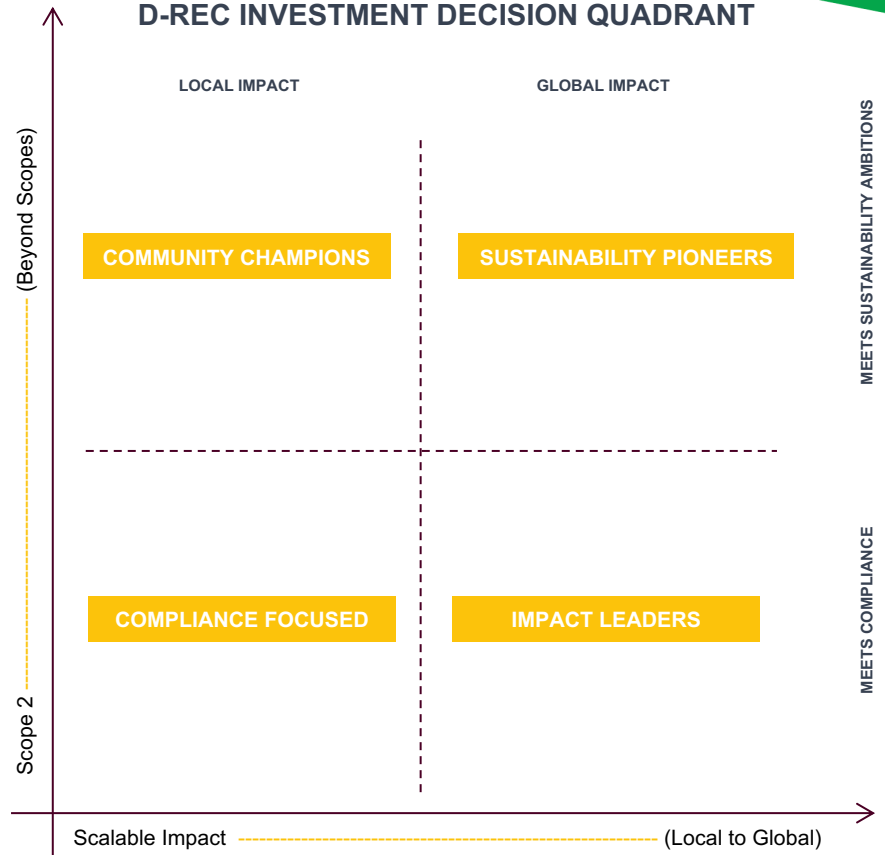

## For Local Governments

- Accelerated Energy Transition

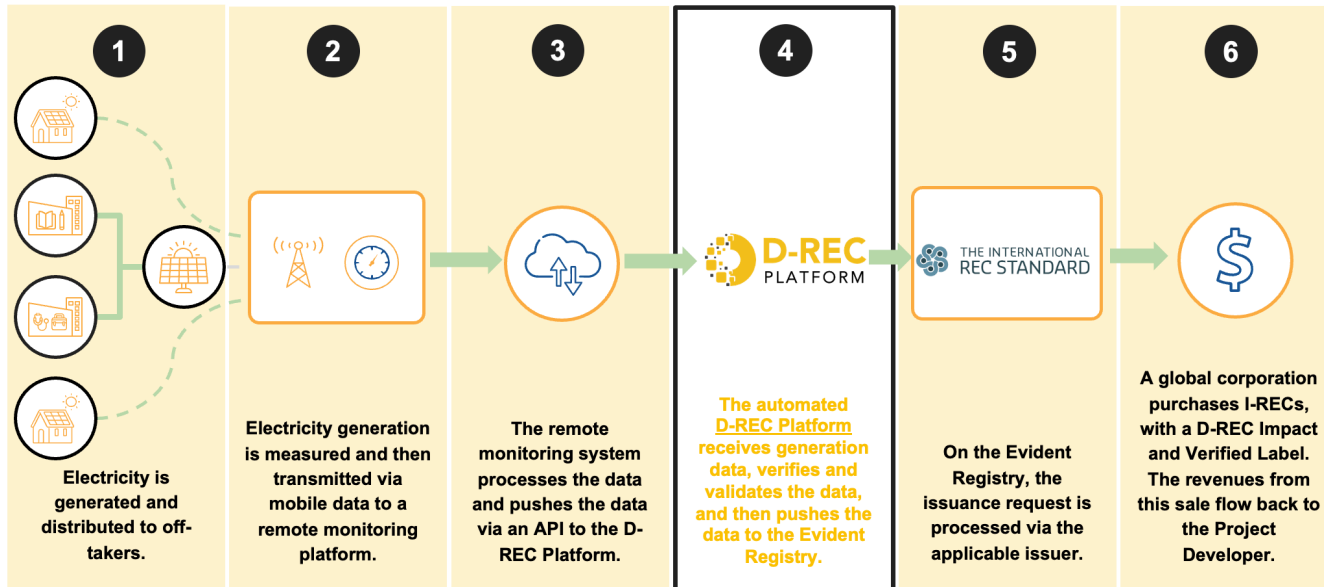

# Benefits For Corporation

Corporations actively contribute towards accelerating DRE adoption in the global south for a clean, just, and equitable energy transition by purchasing D-RECs.

**D-RECs enable position itself at the forefront of meaningful change.**

# How D-RECs Work?

# The D-REC Platform

## Why Tech was Needed

Operate at scale of thousands, not tens of devices

Lower Transaction costs

Lack of data proofing for DRE projects

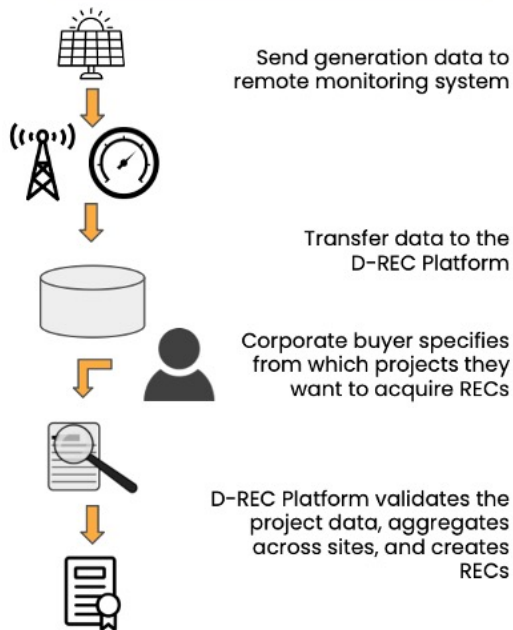

Provide greater project transparency

Capture the social co-benefits along with the electricity data

## How It Works

# The Foundation

## **MISSION**

**Accelerating DRE Adoption In The Global South For A Clean, Just, And Equitable Energy Transition Through Climate Finance**

## **VISION**

*Our vision of a world empowered by clean, reliable, and affordable energy available to every individual and community drives our mission to accelerate the adoption of (DRE) in the Global South. By mobilizing climate finance and leveraging technology, we aim to transform this vision into reality, contributing to an equitable society and a sustainable planet.*

## **STRATEGIC GOAL**

**To Mobilize \$100 Million of Additional D-REC Revenue By 2030 To Accelerate DRE Adoption In The Global South**

THANK YOU
